SUMMARY

As a final-year Information Technology student, I am eager to launch my career as an Artificial Intelligence Intern. I have gained a solid foundation in Python and ReactJS. I am now seeking an opportunity to translate my academic knowledge into a professional environment, where I can contribute to real-world projects and learn from experienced developers.

## Education | GPA: 3.63

**Hanoi University of Business and Technology** 2022 - 2026

Major: Information Technology

Bachelor of Science in Information Technology

## Skills in programming

Programming Languages: Python, JavaScript, ReactJS,
Frontend: HTML, CSS,
Frameworks/Libraries: FastAPI, Streamlit, Django
Databases: MySQL, MongoDB, SQLite
CMS Platforms: WordPress, NukeViet, Joomla

## Certifications

**Gemini Certified Educator** | By **Google for Education** | https://bit.ly/4v6UtdX

- Certified User: Vũ Hữu Trường
- Certification Effective Date: 01 January 2026
- Certification Expiration Date: 2029-01-01

## Projects

**Text-to-Image Generation Application** | 13/01/2026 – 13/03/2026
Self-Directed Project | GitHub: https://github.com/truonghuu344/Text-To-Image
+ Built a web app to generate and edit images from text using API.
+ Integrated Hugging Face API to transform text prompts into images.
+ Added features for automatic background removal and color customization.
+ Used SQLite to save user data and image processing history.
Technical Stack:

- Backend/Logic: Python, SQLite
- Frontend: Streamlit
- AI/ML: Hugging Face API (Stable Diffusion/SDXL), Rembg/Background Removal API

**ToDo Web App** | 27/03/2026 – 28/03/2026
Self-Directed Project | GitHub: https://github.com/truonghuu344/Django-Todo-App

## Soft skills

- Teamwork & Collaboration
- Continuous Learning
- Problem-Solving

## Interests

Learning new things

+ Developed a personal task management web application using the Django framework.
+ Built full CRUD functionality to manage daily tasks.
Technical Stack:

- Backend: Django (Python)
- Frontend: HTML, CSS (Django Template)
- Database: SQLite
